

15/11

Told students they were a committee for a business at org'n like WTO. They had to work out problems & solutions of globalisation. They had to work it out for themselves - Tim just an observer.

1) Phil immediately stepped up as a leader.

- Sarah contributed.
- P acted for write - Dan wrote on w/b.
- P suggested splitting into groups of 3 for each prob listed.

- Division rich/poor.
- loss of culture.
- protection.
- environmental consequences.
- human rights.

David wrote on board.

- 2) Groups → discussion led to ideas on back.
- 3) A good suggestion of where they'd be more specific

4) Phil took charge!

larger group discussion

Tim: progressive welfare system.

split b/w rich & poor

David: raise min wage
Communism - but fair.
Robin Hood.

David: govt I in poorer regions, get them going
Tim: promote giving to poor.

Loss of culture

- Media restrictions (advertising)
- Companies made to adapt products according to local culture.
- quotas [this products become rare, special]

[one comment that trade trumped concerns of culture]

IBC - increase self-sufficiency.

- to FDI

Human Rights - (exploitation of labour)

- fair trade

- incentives from govt to TNCs to not exploit labour

- raise awareness. → consumers buy fair trade products

Environmental Consequences

- laws (anti-pollution etc)

- policies - incentives to recycle.

- companies to make commitments to improve environmental impact

Protectionism

- FTAs

- trading blocs.

- WTO

circulation
assumed

Europeas | Biggs confusion
segregate races - apartheid

DIV'n Rich/Poor

- welfare payments.

- progressive income tax.

Trade-off
computers for a
boardroom feel.
→ what wd impact of
PPPs be?

↑ national parks
carbon emissions, scheme, alternative energy (eg solar)
David: why join environmental agreements? Sarah: looks good.

IBC: David: each country needs to implement monetary/fiscal policy effectively.

HR: Need international body to monitor

Tim: not allow products made by sweat shops in

labelling products. Tax products made in exploitation.
